Dear Dely Noronha,

Congratulations on your purchase of a new Digital PC! And thank you for filling out the Product Registration. Whether you chose your PC for power, speed, quality -- or all of these -- you chose wisely! *Because our PC's are much more than a box.* We know that what really matters is not what a PC does -- but what it does for *you*. Your bottom line. Peace of mind.

For starters, your DIGITAL PC is backed by a three year warranty. Then, *the people who built your system* service it for three full years. That means 30,000 people worldwide are waiting to help *you*, when and if you ever need it. And for one full year, we support your DOS, Windows, or Windows NT operating system -- free!

We are glad to welcome you as a Digital customer and look forward to a productive relationship. In the future, if you should have any questions about your new system, call your Digital Reseller.

Sincerely,

Jesse Parker
Director of Product Management and Marketing
Personal Computer Business Unit

P.S. Oh yes, we promised you a mousepad when you registered your PC, and here it is! Colorful, zany, and a Rich Tennant exclusive.
