Dear Dr. Lacombe

I am interested in your paper: *Anatomical and histological study of the subfamily Triatominae Heteroptera Reduviidae Part 24 comparative anatomy of the digestive apparatus of some species of Triatominae*

which appeared in: *Rev. Bras. Biol.* 37(2), 375-384, 1977 and would very much appreciate a reprint if available.

Thanking you for your assistance,

Yours sincerely,

K. G. DAVEY
