Dear Dr Lacombe

29/12/00

Many thanks for your letter. I apologise for the ^{delay} delay in replying which was partly caused by the delay in forwarding your letter from my previous address.

I was very happy to find a reprint for you after all these years and it is enclosed. Graham and I found a lot of gregarines in the guts of barnacles. I enclose copies of relevant pages of my thesis from long ago about these parasites - although the photographs have not copied well. I do have photographic slides that could be copied digitally if you wish.

Very best wishes

Philip Rainbow
