Prof. Dely Noronha
Helminthology Section
Instituto Oswaldo Cruz
Rio de Janeiro, Brasil

Dear Prof. Noronha:

Thank you very much for the fine set of reprints which you sent to the Harold W. Manter Laboratory. As José and Suzana Amato have told you, we are developing a national resource center for parasitology. The more complete the collections, the more useful they will be.

My very best wishes to you, your husband Dr. Pinto, and to your colleagues in the Helminthology Section.

Sincerely yours,

Mary Hanson Pritchard

Mary Hanson Pritchard (Mrs. C. G.)
Curator of Parasitology
Associate Professor, Zoology & Museum
